The short story is uniquely suited to the twists and turns of the mystery. If you've ever dreamed about writing a mystery, now is your chance to investigate the secrets of this literary short form. You'll get some great experience writing and reading tight, taut mystery in this hands-on workshop.

Author Tim Wohlforth has published many short stories in compilations edited by some of today's best writers, including Harlan Coben, Otto Penzler and Jeffrey Marks. He'll take you through character, setting, plot, voice and description with readings, discussion and a short writing exercise.

The workshop is free to all, but registration is requested by calling the Ashland Mystery Readers Group.
